

Dean College of Sciences - Old Dominion University

Old Dominion University is recruiting a dynamic, nationally recognized academic leader and researcher who together with the faculty will take the College of Sciences and University to greater national prominence. Old Dominion University, a state-assisted, doctoral-granting institution that enrolls over 21,000 students, including over 6,000 graduate students, is located in Norfolk, one of seven cities making up the Hampton Roads region of Virginia, a major seaport and recreation area with a population in excess of 1.4 million people.

The College of Sciences offers bachelors through doctoral degrees in the areas of Biology, Chemistry and Biochemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Oceanography, Physics, and Psychology. The College also offers masters and doctoral degrees jointly with Eastern Virginia Medical School. The College has 167 faculty and over \$10M in external grants and contracts.

Responsibilities: As the chief academic officer of the College, the Dean reports to the Provost and Vice President for Academic Affairs and is responsible for providing dynamic leadership in all instruction, research, and public service programs within the college. The Dean is responsible for providing the vision, establishing the priorities, increasing the College's research and scholarly productivity and promoting academic excellence in all programs. The Dean provides the leadership needed to enhance existing and to develop new multidisciplinary and inter-institutional academic and research programs within the College, across the campus and with partner institutions, e.g., Eastern Virginia Medical School, Jefferson Accelerator Labs, NASA Langley, The College of William and Mary, Norfolk State University and Hampton University.

Qualifications: The successful candidate will have an earned doctorate, a record meriting appointment as a full professor in a department of the College, and administrative experience at the level of academic department chair or higher. Candidates must have a demonstrated commitment to academic excellence and an ability to work with diverse constituencies. Most importantly, the candidate must have the proven abilities to advance the research activities and productivity of the College through increased external funding, partnerships with other academic institutions, state and federal agencies and private corporations.
